Information About the Programme for Disposal of Non-Core Assets

The Programme for Disposal of PJSC Aeroflot's Non-Core Assets (version No. 7) was approved by PJSC Aeroflot's Board of Directors on 21 December 2017. The Action Plan to Dispose of PJSC Aeroflot's Non-Core Assets until 2019 and Register of PJSC Aeroflot's Non-Core Assets were approved by the Board of Directors on 8 May 2019.

The Programme contains criteria for classification of assets as non-core, the non-core asset register, information on encumbrances, book and market value, approach to selecting assets for disposal, as well as disposal methods, procedures and timescales.

The non-core assets owned by PJSC Aeroflot include property and property rights which are outside its flight services, but may be closely related to the development of the Company's end product.

The Company's approach to technological (non-core) assets that have a significant impact on the core business of PJSC Aeroflot:

- Compare benefits from these assets (discounts, reduction in prices and rates, improvement of PJSC Aeroflot's product quality) with the cost of ownership
- Monitor the effectiveness of corporate control

Assets are sold if ownership is found to be ineffective and the corporate control – insufficient.

Technological assets that have a low impact on the core business of PJSC Aeroflot are evaluated in terms of the cost of, and the need for, ownership, based on non-production criteria (achievement of non-commercial objectives, type of business, goodwill, etc.). These assets are disposed of if the effect of ownership is insignificant.

Real estate assets are analysed to determine their highest and best use for the airline's operational and commercial activities.

There were no contracts to purchase/sell securities/interest in non-core entities signed in 2019.
